

# HANDMADE IN AFRICA

# CATALOGUE

Handmade in Africa was established in 1996 to help the rural women of Southern Africa gain self-sufficiency. Combining the traditional craft of beadweaving with popular product ranges and design, Handmade in Africa has established a popular range of jewellery and accessories.

Our beaders work from home, enabling them to generate income while looking after their dependents. In busy seasons we help upward of 40 women, many in self-formed beading communities, become contributing members of their families.

Each category in the catalogue is complete with photograph, details, product code and price in South African Rand (ZAR). All prices quoted are wholesale and ex-shipping. No initial orders under the value of ZAR 500.00 will be accepted. Payments may be made via EFT, and deposit details will be provided on order.

To place an order you may contact us directly or use our downloadable order form, available in Exel format on our website [www.finelineagencies.co.za](http://www.finelineagencies.co.za). This can be completed and emailed for our attention

We welcome your input, and ask you to contact us with any ideas, suggestions or requirements that you may have
